My ENVERA®

visitors

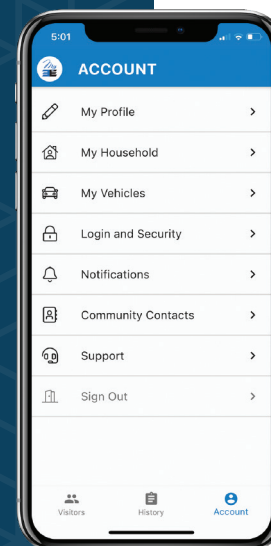

Easily access your **visitor list** and add permanent, temporary, and one-time guests to ensure they are easily verified at the entrance. Keep this list up-to-date by adding new visitors with the **blue icon** in the bottom, right corner. Add your guest's first name and last name, or the company name, and then select the visitor type. When you add a temporary or one-time guest, a blue button to **schedule** the allowed dates and timeframe will appear.

Don't forget to **save** new visitors and any changes you make to existing visitor profiles. All updates instantly sync with your gate system for smooth and simple verification of your visitors and vendors.

history

View your visitor history to see the dates and times that a guest was granted or denied entry at the entrance. You can use the **search** field at the top to search for specific activity information about certain guests or vendors that you have registered for your household.

account

Important account information can be accessed and easily updated. On your **profile**, add or change your contact information. Don't forget to add two phone numbers which are used by our virtual guards to contact you about unregistered visitors. You can also update your household members and vehicles.

Update your username, password, pin, and enable notifications to receive alerts about your account and visitor activity. Enhanced **login and security** features allow you to simply and safely access your account.

Stay connected with **community contacts** and view support materials from Envera to keep you informed about Envera's solutions that help you **access your life**.
